## BIOGRAPHY

Design started to become a large part of my education during my GSCE'S in 2005 when I decided to take up Graphics as one of my subject options. Once I completed my studies at Woodbridge School in 2009, I took a year out to travel around Australia until I returned in 2010. On my return to England I began my studies at Kingston University in September 2010, partaking in a BA Design Studies degree. After studying at Kingston for three years I have obtained skills with certain design programmes, and I am now competent using InDesign, Photoshop and Illustrator.

Having studied Design Studies at Kingston University means that I have been exposed to a broad range of different design forms and outcomes, allowing me to gain an extensive understanding of the design industry. Through my education I have learned how to creatively express a brief though a vast range of formats and structures.

Mr. A. Smith - York

Many of our staff are fully trained and happy to share their gardening expertise. Both coffee shops serve hot and cold meals and snacks all year round so you can make a trip to see us as a day out for the whole family. Deans is very much a family firm. We are proud of being a local family firm with strong roots in the community. [Find out more >](#)

In 1986 Deans decided to expand further and bought a former cut flower nursery in Scarborough. This is now home to another successful garden centre with its own coffee shop "The Gardener's Choice". We produce our own Herbaceous perennials, vegetable plants, spring and summer bedding plants from nursery site. In the run up to Christmas we produce an excellent crop of cyclamen.

"Deans Garden Centre is a family run business serving local gardeners for more than 45 years. Our York store in Stockton on Forest was opened in 1968 by Mr and Mrs Dean. The centre has gone from strength to strength growing to cover more than four acres. "The Bothy" coffee shop opened in 1991 and has been popular with customers ever since."
